WHY WE LOVE BALAYAGE TRANSFORMATIONS

We love balayage at Live True - especially for transformations. It's created by blending the colour from the mid lengths of the hair to the tips, leaving your natural root. This means that not only can it can have a big impact, but it's easy to maintain and can fit any lifestyle! With endless colour and tone possibilities, it's easy to see why the balayage is one of our most popular techniques.

BRUNETTE BALAYAGE

If you're a naturally dark brunette, add luster and dimension to your hair with a brunette balayage. Your stylist can advise you on the best tones to achieve a gorgeous look that is perfect for you.

We can create a multitude of stunning brunette shades - from warm toffee brown, ashy mushroom, hazelnut, mocha, chocolate melt and more. Transform your hair and create gorgeous depth and shine!

BLONDE BALAYAGE

What better way to do balayage than the traditional sunkissed look that first made the technique famous! Whether you're after gorgeous and golden or cool and creamy, a blonde balayage can be achieved on a wide range of base hair colours and with a wide array of tones, so you're sure to find one that suits you.

This look is perfect for lightening your hair in a low maintenance way, keeping your locks looking stunning for longer. We also love creating depth and dimension by adding a range of highlights, babylights and lowlights to this technique.
